**It Can't Leak, Because It's Made in One Piece**

A KANTLEEK is built like a bottle—all in one piece. Most hot-water bottles are made in sections, then cemented together. When cement dries and cracks, the bottle leaks. Every Kantleek Hot Water Bag is moulded of pure soft rubber—one continuous piece. No parts, patches, cement. Even stopper socket is moulded in. And guaranteed for a full two years' service—or a new Kantleek free. Don't wait until your old bag leaks. Get a Kantleek. Your old one may break open tonight.

TRADE MARK

We realize that to-day every wise farm owner thoroughly investigates the tractors that are most suited to his needs—looks up their records, the men who built them, and the way in which he will be cared for after his machine is bought. And in this way he gets the one machine best suited for his needs. That's just the message we would like to give you—how the Fordson was built to meet actual farming conditions, how it did that before it was put on the market; how it has upheld the name "Ford" among 110,000 Fordson owners; how we do not lose sight of our customers' best interests after the tractor sale is made. The story of our service—our method of providing for and taking care of all "Fordson" owners' needs in our territory—is a vital consideration for you before you make your choice of machines. All about the "Fordson" is a message well worth hearing—let us tell it to you in person.

**J. W. FORDNEY**  
Candidate for CONGRESS  
My Platform:  
Protection  
Prosperity and  
Peace.  
Do not fail to vote at the Primary Election August 31st, 1920.

Hon. Cassius L. Glasgow, of Nashville, known state-wide as a successful business man and as state senator and State Railroad commissioner with 16 years of public service to his credit, is an aspirant for nomination for governor whose candidacy is gaining such strength his supporters are confident he will be nominated. Glasgow is not a politician, but a business man who has proved that he has a remarkable talent for state affairs, and he naturally stands for a strictly business administration in which the public would have the advantage of his wide experience. Glasgow was born and brought up on a farm in Hillsdale county, and has kept in touch with agricultural problems during 25 years of business life in a farming community. He knows every nook and corner in Michigan, and is intimately acquainted with the needs of labor and industry. Having applied in his own business and in public service work principles that make him successful, Glasgow naturally stands for economy in administration. He is conducting a clean campaign, pays no money for votes, offers no jobs and promises none.—61-2w-Pol. adv.
